THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

7 March 1985

NOTE FOR: Robert M. Gates
C/NIC

FROM: David B. Low
NIO/AL

SUBJECT: Attached Memo to the DCI

You are invited to the working lunch for a general discussion of the topics covered in the morning (classified--in the briefing room). General Williams and General Odom have put it on their calendars to attend. If you cannot make it, SOVA will already be there to back up the DIA presentation on doctrine and can represent you unless you think it needs to be a higher level person. I will attend the lunch, but with the DCI/Community hat on.

David B. Low

NIC 01133-85
7 March 1985

National Intelligence Council

MEMORANDUM FOR: Director of Central Intelligence
Deputy Director of Central Intelligence

FROM: David B. Low
National Intelligence Officer at Large

SUBJECT: Intelligence Briefing for Presidential Chemical
Warfare Commission (U)

1. On 7 February the Deputy Secretary of Defense wrote you to describe the new Presidential "Chemical Warfare Review Commission" whose purpose is to review national policy and programs for deterring chemical warfare. Your response of 19 February assured Mr. Taft that the Intelligence Community would provide support where requested and appropriate.

2. We have now been given an agenda for the briefings and considerations of the Commission (see attached). The agenda is an ambitious one, including an initial statement by the President or Vice President, statements by senior officials of the Defense Department, a Congressional briefing, tutorial sessions on the nature of chemical warfare, an intelligence briefing, and field trips. They have not yet lined up all of these principals--this is their wish list.

3. There is scheduled for Wednesday, 13 March 1985, an all-day intelligence briefing in Room 3E267 of the Pentagon. (See detailed agenda for the intelligence briefing also attached.) Your presence has been requested to introduce the session. My proposal would be that we prepare a brief introduction and overview of about 5 minutes for you on Intelligence Community work on the CW issue and the Soviet program in particular. You could then leave and we could proceed with the rest of the schedule. If you cannot make it, I will give the opening statement as your representative.

ALL PORTIONS CLASSIFIED CONFIDENTIAL

CONFIDENTIAL

SUBJECT: Intended Briefing for Presidential CW Commission

4. We do not yet know the full makeup of the Commission. We know that it is to be chaired by Ambassador Stoessel and is intended to be bipartisan. We understand that it will include Alexander Haig, Barber Conable, Richard Cavazos (Retired Army four-star general), and Zbigniew Brzezinski.

5. I do not believe that it is essential that you participate. I have some reservations about your being associated with a program which is about deterrence but the real agenda of which is support for the binary CW modernization program. On the other hand, DOD would certainly like to have you attest to the nature of the CW threat posed by the Soviet Union.

A handwritten signature in black ink, appearing to read 'D B Low', with a stylized, cursive script.

David B. Low
